About Me

I am an entry-level web developer looking for a position that will allow me to advance my expertise and knowledge in exchange for quality service. As a person, I always strive to produce high-quality results for the satisfaction of my clients. I'm the type of person who will tell you if I don't know the answer. But I am also someone who will find that answer so that I can give it to you. Finally, I am eager to learn new things that will help me improve my work or make it the best it can be, and I am constantly striving to improve myself to provide quality output with the best possible outcome.

Peter Jayson A. Maceda

Web Developer
